Remember to sign your ticket to enter our raffle for a beautiful Kokora heart necklace generously donated by D.C. Johnson Limited.

Thanks to the gracious sponsorship of K.A. Menendian Rug Gallery, you can enter to win a 3'x5' Tufenkian hand knotted wool and silk rug, (approx. retail value \$2000) and a \$100 gift certificate good toward rug cleaning or repair. Raffle is located at 2761 Asbury Drive.

# Dear Tour Guests,

Hello and Welcome to the 31st Annual Kitchen Kapers Tour!

Thank you for joining us to tour these seven amazingly updated kitchens, taste the spectacular goodies provided to us from local restaurants and enjoy the gorgeous floral arrangements made specially for these houses by our favorite neighborhood florists. It is because of the generosity and kindness of the home owners, restaurants and florists that we are able to showcase the renovation work completed and welcome you into these homes. We would also like to thank our numerous sponsors, including our tour sponsor, Tailored Management, for continuing to support a cause near and dear to all of our hearts.

I have been blessed this year to work with exceptional women who have all given of their time and talents to pull this tour together. It is because of this hard work that our organization has been able to raise over \$800,000 in the past 30 years to fund cancer care services at The Bing Cancer Hospital at Riverside Methodist Hospital. Our goal is to attempt to “lighten the load” of a patient undergoing treatment at the Bing. We do this by providing funding to the Integrative Cancer Care program which incorporates many different types of therapy to a patient as they undergo their treatment plan. Fighting cancer can be as much a physical/medical fight as it is an emotional one. Our hope is that we can support the amazing doctors and nurses fighting the medical “fight” with a tiny bit of the emotional support for the patients. Sometimes a song, art project, massage, acupuncture or many of the other offerings can make the difference between a patient walking out feeling confident in their fight or not. We strive to provide funding for those services. Together we are hoping to make the cancer treatment process just a tiny bit easier.

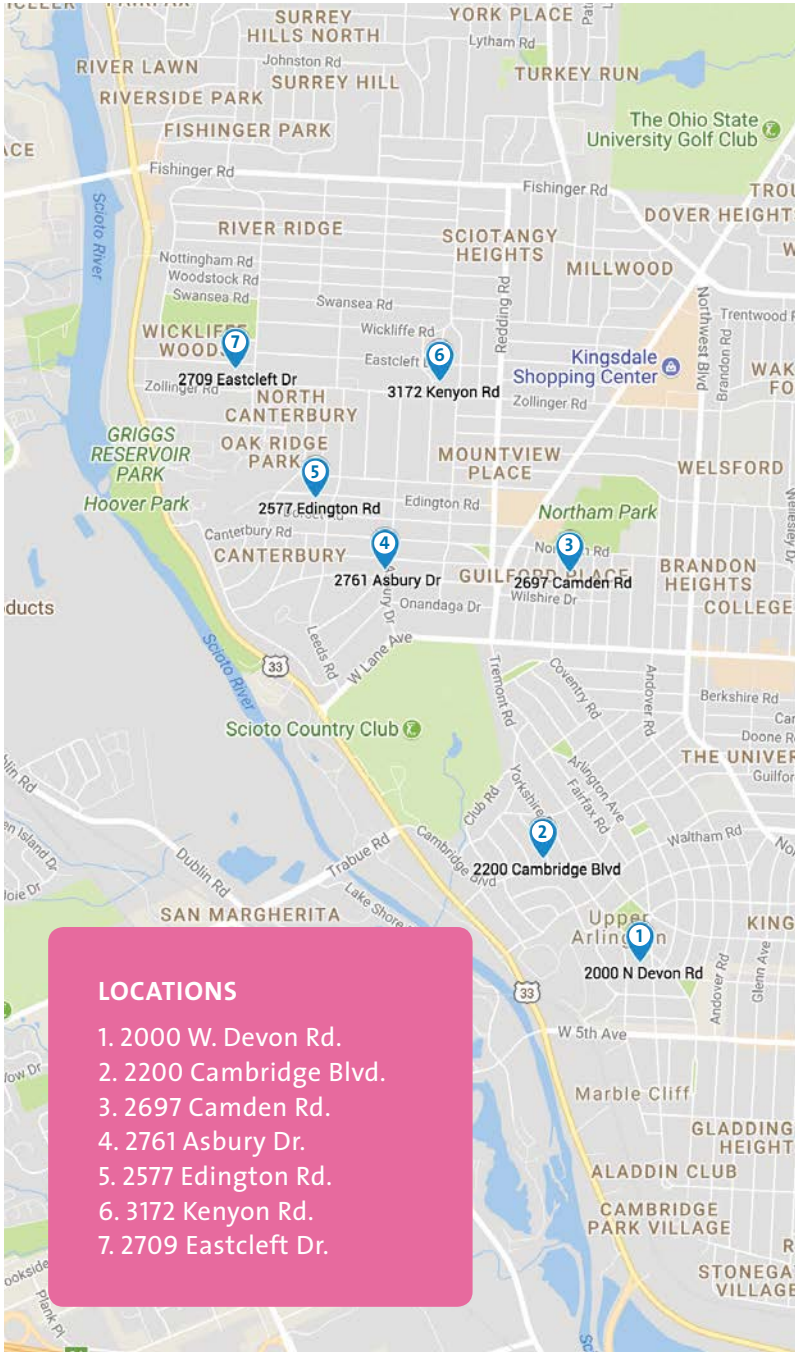

There are many different reasons this group of women has dedicated so much of themselves to the tour, just like there are many different reasons that you chose to join us today. Did you come to get away with your girlfriends for a fun afternoon out? Did you come to research kitchen renovation projects for your own home? Did you come because cancer has in some way touched you? Whatever your reason for being here we are so glad you joined us! Please enjoy this magnificent tour and thank you again for your support.

Kelley Swiney

# Map of Homes

# Dear Volunteers and Touring Friends,

For more than 30 years, the members of Kitchen Kapers have raised nearly \$1 million to support cancer care at OhioHealth Riverside Methodist Hospital.

Kitchen Kapers is a group of dedicated and hardworking volunteers who affect great change in the lives of patients through their fundraising efforts. Proceeds from the annual tour provide philanthropic support to the Integrated Cancer Care Program, a holistic program aimed at treating more than a patient's cancer. This area of medicine draws on the fields of nutrition, stress management, physical fitness, massage therapy, acupuncture and many other non-traditional therapies.

This year, Kitchen Kapers members have not only worked tirelessly to prepare an outstanding tour, they have also worked hands-on at Riverside Methodist, preparing over 600 art kits for the Art Therapy Program and help run the "high tea" service on Seven Yellow (Oncology). Once a week, patients, family and friends are treated to a "high tea" service, complete with music, tea and pastries. Each patient is also given a single rose. Volunteers manage the service in the kitchen and lobby areas which were renovated using proceeds from previous Kitchen Kapers' fundraising efforts. By working in the hospital and around the patients for whom they seek to help, Kitchen Kapers members are able to see firsthand the impact of their efforts. And we at OhioHealth are beyond grateful for their devotion to the patients and families we serve.

Thank you for supporting this event. Your participation will help us continue to sustain these important endeavors which promise a welcoming, uplifting and comforting environment for patients, caregivers and their families. If you are interested in further supporting our efforts, please contact Mark Mangia, System Director for Cancer Care Philanthropy, at [mark.mangia@ohiohealth.com](mailto:mark.mangia@ohiohealth.com) or 614.788.3883.

With appreciation and thanks,

Dr. Andrew Grainger  
Medical Director of Cancer Services  
OhioHealth Riverside Methodist Hospital

## **OHIOHEALTH RIVERSIDE METHODIST HOSPITAL**

### **Cancer Care: Arts in Medicine Program Brings Comfort to Patients and Families**

Where do the arts fit into healthcare? Right at the bedside! Living with cancer can create unbearable stress and anxiety. It can come from constant worry about the condition of cancer or fearful waiting before a procedure or surgery.

The Arts in Medicine program at OhioHealth Riverside Methodist is designed to help patients and their families cope during these times by providing cancer resources and a means to help them relax through creative activities, as well as express and explore their emotions and concerns.

Research studies on arts in medicine programs have proven artistic activities can lower stress levels, decrease anxiety and improve a sense of well-being. Riverside Methodist's Arts in Medicine program includes, but is not limited to, visual, literary and musical arts that can help the patient shift focus into a more peaceful and hopeful mental space.

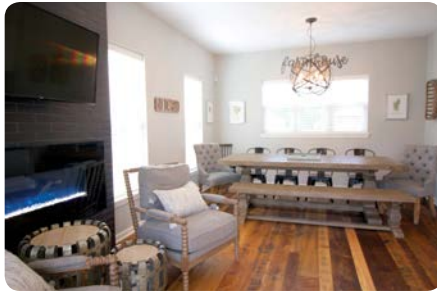

Solely funded by philanthropic support and the only program in central Ohio recognized by the National Endowment for the Arts as a "Best Practice," the Arts in Medicine program is founded on the belief that the creative process involved in artistic self-expression helps people in many significant ways.

## **About the OhioHealth Foundation**

The OhioHealth Foundation helps our central Ohio family of faith-based, not-for-profit, volunteer-governed hospitals and healthcare services fulfill their commitment to extraordinary care.

Gifts made to the OhioHealth Foundation benefit Riverside Methodist Hospital, Grant Medical Center, Doctors Hospital, Dublin Methodist Hospital, Grady Memorial Hospital, Hospice, Mansfield Hospital, Shelby Hospital and O'Bleness Hospital.

For more information, visit the Foundation at [OhioHealth.com/Foundation](http://OhioHealth.com/Foundation) or (614) 544-GIVE (4483).

*Mark Taylor, NBC4*  
2018 Honorary Spokesperson

Kitchen Kapers is proud to have Mark Taylor as the Tour Honorary Spokesperson. Mark joined NBC4 in December 2016 as co-anchor of the 5pm news. He is thrilled to call Columbus home and is developing a growing wardrobe of scarlet and gray!

Mark is an award winning journalist who has covered deadly tornadoes in Oklahoma, devastating floods in Colorado and destructive wildfires in Oregon. He is also a nationally published writer and Huffington Post contributor.

Most recently, Mark was the weekend anchor at the CBS affiliate in Denver, Colorado where he covered the aftermath and sentencing of the Aurora theater shooter's trial. He was also on the front lines of Colorado's devastating flood in 2013 that caused millions of dollars in damage and left several dead.

Before Denver, Mark was the weekend anchor at the Fox affiliate in Oklahoma City, Oklahoma where he was one of the first reporters on the scene after the 2013 Moore Tornado which killed more than two dozen people and caused two billion dollars in damage. His investigative reporting in the aftermath revealed mistakes made by the OKC animal shelter and the accidental euthanization of a family dog, which led to new changes in procedure.

Mark has also been a reporter and anchor in Phoenix Arizona and Eugene, Oregon. He graduated from The Walter Cronkite School of Journalism at Arizona State University with a degree in Mass Communications and Journalism.

Mark was born in Phoenix, Arizona but both his parents are from Toronto, Canada. In his free time you can catch him at Starbucks, the gym, or hanging out with his pug Paige.

- + No food or drinks except for that which is provided by the chefs in the home.
- + Guests please refrain from touching home contents.

# Hall Home

**2000 W. DEVON ROAD**

*Welcome to 2000 West Devon Road, home of Clayton and Virginia Hall, their son James, and golden retriever Welly. The Halls spent nearly 2 years searching for the right home for their growing family in Upper Arlington from their Short North neighborhood. Almost immediately upon purchasing the home, which was built in 1917, they hired the Matrka Group to begin renovations. After multiple interviews, Matrka stood out as the front runner due to their transparency regarding the time frame, and their shared passion in transforming this home into the exceptional and uniquely beautiful space it is today.*

Every single room on the first and second floors were touched and customized in some form or another. The first floor doesn't lack a single detail, including an office space for Clayton, a breakfast nook, a dry bar, a built in desk area, a spacious family room, a mudroom by the side door with a powder room for guests, a traditional dining space, and an adult living area. The Halls both knew they wanted the first floor to have a natural flow throughout, and to maximize the kitchen space. The existing white oak floors were all refinished and restained. When they originally purchased the home, the kitchen space had 3 separate ceiling heights which were all leveled out to one to modernize the home.

Virginia, being a designer, knew that natural light was a priority in the new design as well as keeping with their traditional aesthetic with rare and one

of a kind pieces tied in throughout. This home is the perfect balance of modern living meets classic style. The stunning kitchen boasts an impressive 9 foot island made from honed Calcutta Gold Marble and a dry bar off to the left complete with wire detailing and a wine fridge. The slab was fabricated by Chester A. Smith. In addition to a custom hood with nickel strapping, the Kitchen Aid appliances are flawlessly hidden behind paneling to add to the clean and timeless look. The cabinets and trim were painted in White Dove. The lighting adds additional visual appeal with cone pendants, as well as a iron lantern above the breakfast nook. The backsplash is simple and stunning with handmade ceramic white subway tile in an unconventional 3 x 12 instead of the standard 3 x 6. The 48 inch Wolf Range makes for the ideal place to cook and would make any chef envious.

Even the windows were replaced to a galvanized, steel coating to showcase the outstanding landscaping and backyard. Every single piece of this kitchen was given careful thought and consideration. The entire project from start to finish

took roughly 7 months. Enjoy your visit to this beautiful space The Hall family has so graciously welcomed us into today to benefit the Bing Cancer Center and the fight against Cancer.

## NOTES

# DeVoe Home

2200 CAMBRIDGE BOULEVARD

*Welcome to 2200 Cambridge Boulevard, home of Anne and Keith DeVoe and their two children, Maddie and Andrew. The home was built in 1939 and purchased by the DeVoes in 2004. The owners were looking for a historic home that they could restore and make their family home. While the home had been neglected over the years and needed lots of work, they were immediately drawn to the home's location on a corner lot at the top of a hill. The home gets a lot of light and has great views. The homeowners also love that they see many friends and neighbors passing by on Cambridge.*

In 2016, they kicked off renovations to their kitchen, mudroom and powder room. The original galley kitchen was dark and easily crowded when hosting gatherings. The DeVoes wanted a new space designed to accommodate lots of people (including multiple chefs at one time) and serve as an additional family hang out space. Anne's vision for the new kitchen was a white and bright space with timeless style and understated elegance. The simplicity of the color scheme, timeless materials and cabinet style are intended to seamlessly blend with the original 1930's character while also providing a stylish modern feel.

The spacious kitchen includes white painted cabinetry adorned with polished nickel hardware from Restoration Hardware, a large honed Carrera marble island and a feature wall for art. The

kitchen is designed with numerous windows, few upper cabinets and canned lights rather than pendants over the island—all with the goal of creating an airy and open space that is filled with natural light. Other features of the kitchen include a Thermador double oven range and refrigerator. The DeVoes love the new space and often can be found in the kitchen working, reading, drawing, or just spending time together.

The understated landscaping was inspired by country homes in England and France and adds the finishing touches to a very special property.

As you walk through be sure to enjoy the DeVoes extensive art collection ranging from gallery pieces, gems found during travels, family heirlooms and work by their children. Thank you for visiting this masterfully restored home.

## NOTES

Architect: Stock & Stone Architects

Appliances: Ferguson

Counter Material: Honed Carrera Marble

Kitchen: Benjamin Moore Stonington Grey

Dining Room and Library: Benjamin Moore Coventry Grey

Mudroom and Hall: Benjamin Moore Revere Pewter

Trim Throughout: Benjamin Moore OC-117

Fun Fact: The homeowner loves travel and has collected art from places around the world, including Sweden and Cuba, and the family loves to read so much they added an additional hall library during the remodel.

# Arts in Medicine Interaction

Kitchen Kapers would like to thank Jennifer McHale, art therapist, for providing an opportunity to see how art impacts others.

The Arts in Medicine Program at OhioHealth Riverside Methodist Hospital is designed to provide oncology/hematology patients and their families an opportunity to utilize various art processes and creative outlets to assist in self-expression, reduce stress and provide outlets to explore emotions and concerns. The art therapist provides both individual and group therapy in both inpatient and outpatient settings.

Kitchen Kapers would also like to thank John Morgan for sharing his musical talents during the tour today. John is a current Artist in Residence at Riverside Methodist Hospital.

# Paxton Home

**2697 CAMDEN ROAD**

*Welcome to 2697 Camden Road, home of Jill and Vince Paxton and their three young children. This home is new construction, built in 2017 taking almost 15 months from start to finish. This is their first project as a family and a huge one at that. Working with an architect, builder and team of professionals their dream home soon became a reality. Encompassing a transitional style (a combination of modern and traditional) throughout that capitalizes on light finishes and a mix of textures, which makes this house a home.*

As you enter, you instantly notice the high ceilings and gorgeous red oak hardwood floors. The space is open and bright with large windows throughout. As you walk to the kitchen you see a formal dining room to the left followed by a beautiful walk in pantry with counters for small appliances and floor to ceiling shelving, which allows for abundant storage.

In the kitchen you immediately look upon a 10 foot island with a beautiful Cambria quartz counter top, this is perfect for gathering with most meals eaten here. The island has cabinets all around giving it generous storage and function. There is a Sharp microwave drawer, large single basin kitchen sink and a Thermador dishwasher found in the island.

The spacious kitchen includes custom floor to ceiling white cabinets. It has a 6-burner stove top with a faucet above that unfolds to fill up your pots. There is a Thermador double oven on the far wall next to a large Thermador refrigerator again with floor to ceiling cabinetry.

There is an informal dining area to the left of the island and an open concept living room that looks out into their backyard. On the right is a mudroom with built in lockers for the children and a his and her locker, again these lockers and cabinets reach floor to ceiling. The tile is a linen tile, 12x24 inch Rhyme Desert Harmony.

Thank you for visiting this casually elegant home with its bright airy and open concept layout.

## NOTES

Counters Throughout: Quartz except granite in half bath

Flooring Throughout: Red Oak

Mudroom Tile: 12x24 Rhyme  
Desert Harmony

Kitchen Backsplash: 3x12 Masia Series Ivory

Trim Throughout: Sherwin Williams  
Dover White

First Floor: Sherwin Williams  
Accessible Beige

Dining Room: Sherwin Williams  
Nomadic Desert

House Exterior: Benjamin Moore Briarwood

Fun Fact: The homeowner desired a clean, uncluttered kitchen so opted for features like a microwave drawer and installed extra outlets in the pantry for small appliances.

# Smith Home

2761 ASBURY DRIVE

*Welcome to 2761 Asbury in the coveted Canterbury community in Arlington. The Smith's purchased this house in 2015 as a spec home but got to choose all of the finishings from the floor and trim to the cabinetry and lighting. This family of 5 wanted their home to be centered around entertaining and a place their kids would want to bring their friends. They exceeded in spades!*

From their welcoming open kitchen/ dining, to their outdoor spaces ready for any occasion. When you walk through the front door you're greeted with the beautiful wide plank hardwood floors in a gorgeous maple-honey that provides the perfect canvas. As you walk past the impressive staircase you're invited into a large open floorplan that still feels cozy. The layout of the kitchen allows for 180 degree views of the rest of the house at every angle. You're hit first with the cabinetry in antique white and then the Black Fox Island. A generous mudroom and pantry extend off the kitchen. Their large dining area leads into the living room and then flows outside where the family spends most of their time. An office and "Mother In Law suit" can be accessed off the dining area.

Every inch of this house screams modern with a hint of rustic. The outdoor space was thoughtfully designed to incorporate shade and sun areas along with a built in grill and custom fireplace perfect for roasting marshmallows. In addition to their back patio they have two other outdoor spaces meant for porch sitting and lemonade sipping. You can almost see the family enjoying a beautiful evening outside eating dinner together and sharing their day's stories. With all the modern touches like a built in espresso maker, custom dog washing station (garage), built in "sonic" ice maker and extra full freezer in the pantry this home is still very inviting and kid friendly.

## NOTES

Perimeter Cabinets: Antique

Island Cabinets: Black Fox

Pantry and Mudroom Cabinets:  
Montana Antique

Perimeter Counter: LC Aria  
(3 CM Eased Edge)

Island Counter: Dekton Strato (6 CM)

# Tucker Home

**2577 EDINGTON ROAD**

*Welcome to 2577 Edington Rd, a house built in 1951 but transformed by their modern day owners Jack and Lyndsey Tucker. The home was originally a ranch that had a second floor addition put on by the previous owners. Despite its great bones, this mid-century ranch was in desperate need of a face lift and thanks to the partnership of contractor Clint Rex, a whole new life was brought to this classic Arlington abode. The seven month renovation took the house down to the studs. Some of the major changes included taking out walls to give the house an open concept floor plan and moving the existing kitchen from the now mudroom, into the middle of the house creating the ideal space to host and entertain.*

The exterior stone was coated in the perfect shade of white while the windows and trim were changed to a warm black that contrasts beautifully against the stark nature of the white paint and the warm compliment of the brass exterior lighting. All new windows and French glass doors by Anderson were a needed addition to give the house an abundance of natural light. Being a family that enjoys having their friends and family over, they added a side porch off the front of the home that is both welcoming yet functional. It has outdoor couches and chairs along with a tv to provide yet another comfortable space to watch their favorite shows and games. Lyndsey, who has a natural eye for style, along with help of her designer, Laura Hawk, LCH Interiors, designed the interior of the home to be in Lyndsey's words "rustic glam."

Upon walking into this stunning home, your eyes are immediately drawn to the classic theme of white, black and gold

(Lyndsey's favorite colors). The front foyer immediately opens up into the large modern kitchen with a breakfast nook beyond. To your left are the living room and formal dining room. The main walls in the house are painted in Benjamin Moore white dove while the shiplap that wraps around the re-centered fireplace was done in that same color but in a satin sheen and finished off with a wood beam for warmth. The 8 1/4" wood floors in a white washed natural water stain stretch the length of the home and continue the light, refreshing feel that the Tuckers were used to in their previous home in Southern California. The Imperial Danby marble surfaces and brass visual comfort and Restoration Hardware lighting are elegant and timeless. The dining room is wallpapered in an eye catching black and white leopard that has become the conversation piece of the home. Next door to the dining room the butler's pantry holds its own with the white glass herringbone tile, complimented by

custom mixed gold grout. Just past the butler pantry is the new powder bath and mudroom, both of which are not to be ignored. The mudroom immediately grabs your attention with the black and white herringbone laid floors and black painted lockers with shoe storage underneath and brass hardware/lighting to warm things up! The slate colored Native Trails concrete sink and statuary marble counters make this mudroom/laundry room a space anyone would love to spend time in. The powder room which also shares this space is wallpapered in a cole and son animal print and soapstone counter. The entire space can be easily closed off by the reclaimed wood sliding door, which any parent of three kids needs for those days when laundry is piled high and shoes and coats aren't put in their place. This incredible region of the home is every bit functional as it is beautiful.

Walking back into the kitchen down the back hallway you cannot ignore the highlight of the new kitchen, which is its 10' island. This gorgeous sprawling centerpiece is wrapped in custom hickory to match the hood, both stained in a white wash and then torched to Lyndsey's specifications to create a unique and distressed look. The top is a thick slab of honed Imperial Danby that ties in all the natural elements of the home while giving

the kitchen a truly unparalleled elegance. The perimeter cabinetry match the walls in the Benjamin Moore white dove finish complimented by brass hardware. The homeowner worked closely with Miller Cabinet Company to bring her vision to life. The range backsplash is done in a brick laid marble with a brass pot-filler to complete the look. The Thermador fridge and freezer which frame in the large wine fridge are all neighbors to the spacious walk in pantry. The pantry is fitted with custom reclaimed wood counters that host a beverage center and store all the families smaller appliances. There is even a window in this space to allow for natural light. The pantry can be closed off by the custom iron and glass sliding door that Lyndsey designed. Whether its sitting in the custom leather breakfast bench eating a meal or stretched out watching a show on the navy velvet tufted sofa in the family room, this slightly residence is both warm and tasteful, the perfect domicile for this trend setting family of 5.

The Tuckers have had several family members diagnosed with cancer which inspired them to open their gorgeous home up for our tour. As you explore their immaculate kitchen and enjoy the numerous whimsical details, please take time to thank them and our sponsors for their generous support.

# Farrel Home

**3172 KENYON ROAD**

*Welcome to 3172 Kenyon Road, home of Kate Farrel and her son. This beautiful home was just built last year in 2017. Kate had purchased and lived in the previous home on the property since 2002. The fact that Kate loved to entertain and host her large extended family for holidays and dinners, and most importantly the arrival of her son, fueled her desire for a larger home. She viewed several homes in the area and all seemed to be lacking something. She determined that the only way to get the exact home she wanted was have it built. She knew the street and neighborhood that had been home to her for the last 15 years was the perfect spot.*

Kate chose the Cleary Company as General Contractor to build her new home and she was able to help be a part of the design process. Her previous home was completely removed and her new open-concept home was built in its place. The planning process took one year and then construction took seven months. Now Kate has the perfect home for her family.

As you enter the home, you will immediately notice the beautiful reclaimed oak barn wood floors. You then walk down a short hall and enter the open-concept yet homey living space. To the left is the family room area and to the right is the kitchen and eating area. The kitchen is modern farmhouse inspired and is anchored by a large island with quartz countertops.

The island includes a deep-basin farmhouse style sink, dishwasher and lots of cabinet and shelf storage. The island is highlighted by Elkay Rope Pendant lamps. Behind the island is the range that she re-used from her previous home, a subway tile backsplash with an arabesque-style tile accent above the range, and more cabinet storage. The right side of the kitchen includes the new KitchenAid refrigerator and a wall of cabinet storage with enough room to store all her small appliances. On the left side of the kitchen is the eating area, which along with a small sitting area with a Carbone Brick fireplace. Lastly, behind the kitchen is a mudroom, with access to the garage and a laundry room. All walls of the space are painted with Sherwin Williams Light French Gray.

## NOTES

Contractor: The Cleary Company

Counter: Summerhill

Flooring: Reclaimed Barn Oak

Fireplace: Carbone Brick

Kitchen Island: Benjamin Moore 1631  
Midnight Oil

Wall and Base Cabinets: Benjamin Moore

# Turner Home

**2709 EASTCLEFT DRIVE**

*Welcome to 2709 Eastcleft Dr. Home to Jason and Jill Turner and their children. The land this home is built on is rich with history. It was part of a property called "Eastcleft on the Scioto" that encompassed the land from Riverside Methodist Church to Fancyburg park which was originally owned by President John Adams. In 1922 the Morely family built the original house on the property and kept it continuously in the family until the Turners purchased the home in 2014. Their building story is a unique one since the Turners purchased the home mid-remodel. They picked up where the previous owner left off and turned a shell of a house into the inviting family-centered home it is today. The Turners purchased the home in 2015 and partnered with a local builder to complete the project in 8 months.*

The Turners goal when designing their kitchen was to create a comfortable spot for their family to convene while keeping with the traditional look of the 1922 home. Having an island with an eat in kitchen centered on family was the priority for the Turners during their planning. Despite their very busy schedules, the Turners are committed to balanced organic meals and eating almost all of their meals at home. The beautiful dining room that sits right off the kitchen is where they gather to eat their home cooked meals each night. They installed a fireplace in the dining room to create a cozy atmosphere. During the winter they light fires almost every evening while they dine.

When you walk into the Turner's kitchen you will immediately notice the oversized white, black, and champagne

marble countertop and how it contrasts perfectly against the beautiful Potomac oak floor. Jill wanted the kitchen to be a spot for her children to gather to do homework and have snacks after school, so this oversized countertop was the perfect solution. The white cabinets with chrome hardware and the subway tile backsplash in ashen white go perfectly with the Thermador appliances. Right off the kitchen is the pantry, which is cleverly hidden by a gorgeous sliding barn door that the Turners purchased from a farm in Belleville, Ohio. They wanted to have a place to keep their appliances out of the way, so they installed outlets in the pantry and added a second refrigerator.

Their home has an open layout that is perfect for entertaining since Jill and Jason host fundraisers for their

children's school and enjoy having large groups over to watch OSU football games. The convenient grilling area right off the kitchen is a feature that the Turner's guests especially admire during events. The newly designed and installed landscaping adds the finishing touches to a special property.

The Turners have a special connection to cancer care since Jason's father passed

away from cancer. Having been touched by cancer, the Turners generously offered to open their home up to us for the tour.

Thank you for visiting this stunning home. As you walk through and explore all of its beautiful details, please take a moment to thank our generous home sponsors for their support.

## NOTES

Flooring: Potomac Oak

Tile: Ashen White Subway

Appliances: Thermador

Fun Fact: The kitchen boasts many clever storage options, including: two

refrigerator drawers for beverages, a second full size refrigerator in the pantry, base cabinets under the front of the island eating bar and a full height command center cabinet for charging devices, tracking schedules and much more.

## *Cold caps treatment*

*Before Chemotherapy*

*After Chemotherapy*

# Anne's Story

I was diagnosed with stage 1A breast cancer on November 25, 2016. When my husband and I sat down to tell our two school-age kids about my breast cancer, my 7-year-old son had three immediate questions for me: “Are you going to die?” (Nope, not from this.) “Does it hurt?” (Not a bit.) “Are you going to lose your hair?” (I sure hope not, but we’ll see.)

I didn’t want to look like a “sick” cancer patient and I certainly didn’t want my kids to see me as anyone different than my normal, active, ponytail-wearing, blowout-loving self. Then I discovered scalp cooling and Cold Caps. The freezing temperature of the caps constricts blood vessels that feed the hair follicles, which reduces the amount of chemotherapy drugs that reach them.

I finished chemo on April 11, 2017, with a full head of hair. Keeping my hair during treatment wasn’t just about vanity or a perceived sense of control. It was about dignity, and anonymity, and privacy. Cold caps allowed others to view me as a healthy person. Most importantly, in the eyes of my kids, I just looked like me.

Since completing my chemo and successfully using cold caps, I’ve been talking to anyone who will listen to my story. Kitchen Kapers has a long history of working locally to improve the lives of cancer patients. OhioHealth has an outstanding reputation in cancer care. I am beyond thankful to be working in partnership with both of these amazing organizations to support future cold cap users and improve the quality of life of more cancer patients.

+  
**Lee Ekleberry, Watercolourist**  
 Educational, Vocational, & Artistic Background

**Education and Vocational Background:**

Holding art degrees from Bowling Green State University (B.S. in Art Education), The Ohio State University (Ph.D. in Art Education), Lee has taught Studio Art, Art History, and Teacher Education Courses at all levels (elementary, middle school, high school, community college, and university). The largest part of his teaching career was practiced at Grandview Heights High School (25 years) and Capital University (7 years). He retired from teaching in 2013 and now concentrates on painting.

**Artistic Endeavors:**

Specializing on transparent watercolor painting since 1988, Lee has been a frequent exhibitor at area art fairs and festivals, regional watercolor exhibitions, and one-man shows in central Ohio galleries and libraries. During this time, he has garnered various art awards: best overall display, 1<sup>st</sup> and 2<sup>nd</sup> place awards, and purchase awards. Lee holds memberships in the Central Ohio Watercolor Society (serving as president in 1999) and the Ohio Watercolor Society.
