Thanks to the gracious sponsorship of D.C. Johnson Limited, tour guests will be entered to win a Marla Aaron Large Fig Enamel Cuff Bracelet valued at \$750. The bracelet is on display at 2485 Sherwin Road.

Thanks to the gracious sponsorship of K.A. Menendian, tour guests will be entered to win a 3x5 Tufenkian 100% wool, hand-knotted (approx. retail value \$1,500) rug. The rug is on display at 2351 Oxford Road.

Winners will be announced via email after the tour.

Dear Tour Guests,

Welcome to the 34th Kitchen Kapers tour!

It has been a privilege to work with this incredible group of women to bring you the seven beautiful homes on today's tour. We are so grateful for the homeowners, businesses, and sponsors who contributed to our ultimate goal of funding important cancer care programs at OhioHealth. And, finally, we are so thankful for you, the tour guests, who have purchased tickets—further funding our mission.

Beyond the spectacular array of kitchens, delicious foods from area restaurants, and beautiful displays from local florists lies our mission: to raise money for cancer services at OhioHealth Riverside Methodist Hospital. To date, Kitchen Kapers has raised more than \$1 million for the hospital's foundation. Traditionally, funds have supported integrative care through Riverside's Artist in Residence program. This holistic program brings music, poetry, and art to the bedside of cancer patients to enhance healing, improve quality of life, and enrich treatment. A few years ago, Kitchen Kapers added a different service to our mission: cold cap therapy. Through the program, Kitchen Kapers covers 75% of the cost to patients for the cold caps, helping patients keep their hair during chemotherapy. The program has since become the biggest recipient of Kitchen Kapers' funds.

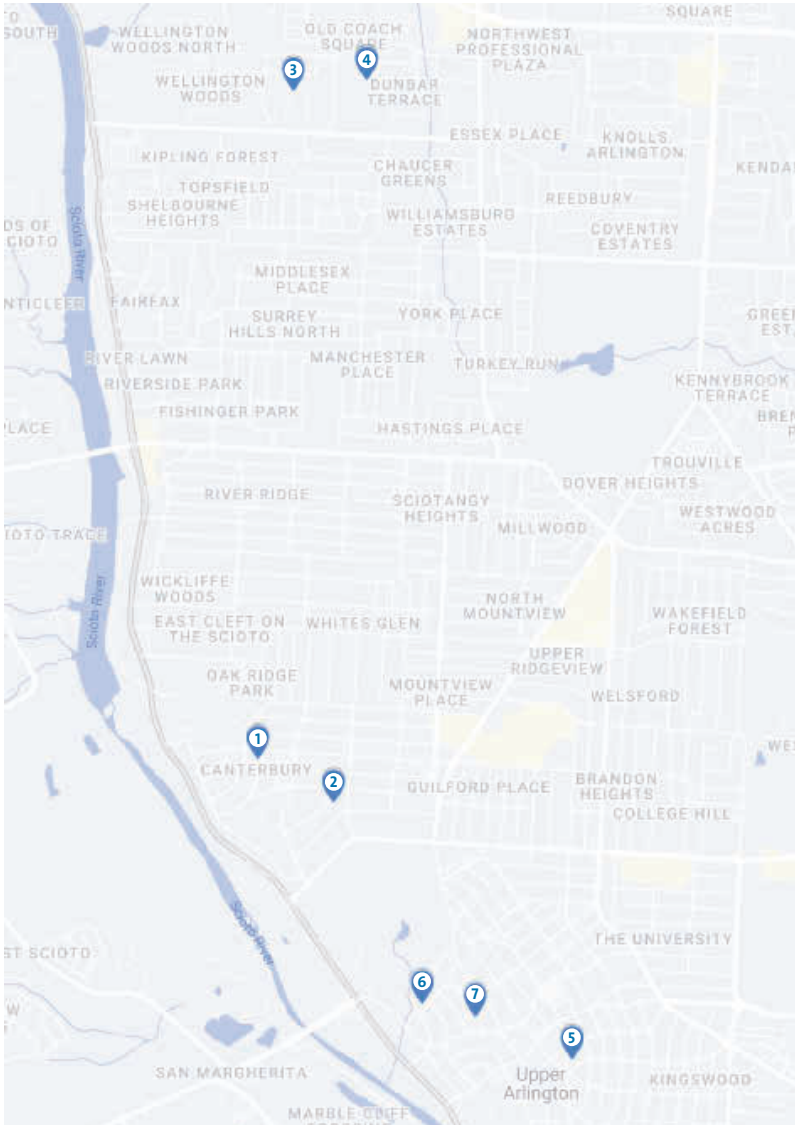

I am amazed and grateful for the hardworking efforts of our members, who have given endless hours and talents to ensure today's success. Riverside and The Bing are working to help patients thrive—not just survive—through their treatment. And the support we provide through the money we raise at Kitchen Kapers allows them to do this.

Whether you joined today's tour to consider new ideas for your kitchen, enjoy the day with family and friends, or because the mission is personal, we are happy you are here. I hope you will join me in thanking the 30+ years of Kitchen Kapers members who came before us and worked hard to continue the tradition and mission, which will endure until no more cancer is left to treat. Please leave knowing that YOU have made a difference in the lives of those living with cancer. We hope you enjoy this year's tour!

With gratitude,

Sara Robertson
Kitchen Kapers President

Dear Volunteers and Touring Friends,

For more than 30 years, the members of Kitchen Kapers have raised over \$1 million to support cancer care at OhioHealth Riverside Methodist Hospital.

Kitchen Kapers is a group of dedicated and hardworking volunteers who affect great change in the lives of patients through their fundraising efforts. Proceeds from the annual tour provide philanthropic support to the Supportive Cancer Care Program, a holistic program aimed at treating more than a patient's cancer. This area of medicine draws on the fields of nutrition, stress management, physical fitness, massage therapy, acupuncture and many other non-traditional therapies.

This year, your philanthropic efforts also continued our patients' ability to participate in OhioHealth's Cold Cap Therapy program. Cold Cap Therapy is a cooling system that constricts blood vessels in the scalp, which may allow patients to keep more of their hair during treatment by reducing the amount of chemotherapy medicine reaching hair follicles. Kitchen Kapers' support makes this therapy more affordable for our patients.

Kitchen Kapers have historically, through volunteerism, seen firsthand the impact of their efforts. While COVID-19 may have put a pause on your ability to volunteer at Riverside Methodist Hospital, it certainly did not pause your incredible dedication to our patients and their care. We are grateful to call Kitchen Kapers our partner in the fight against cancer and providing holistic, compassionate care to our patients.

Thank you for supporting this event. Your participation will help us sustain these important endeavors which promise a welcoming and comforting environment for patients, caregivers and their families. If you are interested in further supporting our efforts, please contact Mark Mangia, senior advisor for cancer care philanthropy, at Mark.Mangia@OhioHealth.com or (614) 788-3883.

With appreciation and thanks,

A handwritten signature in black ink that reads "Andrew Grainger".

- + Children must remain with parent or adult at all times.
- + No food or drinks except for that which is provided in the home.
- + Guests please refrain from touching home contents.

Britton Home

2851 EXMOOR ROAD

Eclectic is an understatement when it comes to all things Jeni Britton. With the help of Sullivan Builders, Jeni's Canterbury-area home is as varied and beautiful as her world-famous ice cream.

Upon entering, the house is awash in natural light and dynamic backgrounds that set the stage for everything from lively family dinners to full camera-crew videos. The kitchen immediately pops with dancing colors of the terrazzo countertops. Reminiscent of sprinkles in ice cream, the countertops are from a company in California created from Venice Alabaster Large Mixed Chip. The countertops were used as the foundation to set the tone for the look of the rest of the kitchen. The counter seems to melt over onto the mosaic floor, which is

American Olean mosaic in Light Smoke and was selected for its period-specific look. Adding to the charm and texture of the original house, the floor keeps the eye flowing to the rest of the kitchen.

The skylight tunnels over the island have electronic louvers built in and are controlled by a switch under the island sink, so Jeni can add natural light when filming in the space. As a creative and a cook, Jeni had specific needs that were laid out ahead of time as the kitchen and surrounding areas were updated

from their compartmentalized layout common for the time. An open flow kitchen was not the norm when the house was built, it was and would have been more of a closed off workspace for one of the family members, or perhaps a staff member to cook in. The appliances in this updated but period-appropriate kitchen are from GE Café. Combining the power of a commercial kitchen with the runway styling of a home, the color and finish of the appliances could be customized to match Jeni's personality and home.

One of the most important things when designing the space was keeping the feeling that it was 'always the way the house was laid out.' This meant that nothing looked out of place in the 1953 home. Other than the kitchen, only a few key areas of the home were updated, with the rest remaining true

to the original design. The front door was replaced with a solid walnut door and the foyer interior and exterior trim were renovated to create a board and batten detail. The powder bath and hallway were remodeled with new tile, a new vanity and plumbing fixtures. The Phylrich faucet and Kohler Sink in French Gold complement perfectly the tap in the powder room, which was something that fit the era of the house and Jeni's personality perfectly, but choosing a black finish updated it with a modern look.

A place where she and her family can freely let their creativity flow, this home is a perfect representation of the spirit and personality that shines so bright in our Columbus community.

Carey Home

2485 SHERWIN ROAD

Colleen Carey's house in the Canterbury area is built to entertain. Large windows, an open concept and plenty of light keep this home bright, cheerful and full of love.

When she first saw the house, Colleen Carey knew she had to have it. The large yard is rare for the area and she knew, if nothing else, she wanted a pool. From there, and with the help of Stock & Stone Architects and Derrick Layer, Colleen put her design chops to work to create a space with the crystal clear pool at the center of it all.

Walking in, the high ceilings and large light fixture of the entryway are flanked by two rooms. One, a multi-use room, is perfect for hosting birthday parties or showers, while the other is a contemporary sitting room with tons of style. Two trees on an opposing wall immediately indicate this house is down to earth, while the black leather club

chairs let you know there's more to this style than meets the eye. Items throughout the home are a meticulous curation of old and new, which propels the traditional base of the home into a transitional and contemporary look.

Upon entering the kitchen, the oversized quartz island is the perfect gathering place for large parties and intimate family dinners. Custom wood cabinets line the walls, setting up plenty of storage for the fine dining the family values so much. Oak floors bring a sunny California feel to the home while GE Monogram appliances add a touch of modern. Sharing a space with the dining room and the living area, this kitchen is truly the heart of this home.

Moving into the dining area and living space, grays are offset by the wooden

barn doors that house the TV and console. Recessed ceiling details give the open-concept living area a distinct feel as you wander into the star of the show, the backyard.

As Hamptons as you can get in Upper Arlington, the long backyard pool is surrounded by boxwoods and white hydrangeas. The dual seating area on the deep covered porch serves for both comfort and function.

Colleen's favorite time in her home is sitting on the back patio enjoying dinner and the pool with her two kids and dogs. It's the reason she worked on the home for 1.5 years, and it has lived up to its potential every day since.

Fair & Vaidya Home

4630 HULL FARM LANE

The old world décor has a special meaning in the home of Michael Fair and Hetal Vaidya and their two children. More than just a stunning style, the rustic look is a touchstone to years spent living in Europe. Blending beautifully with modern touches and a traditional base, this home is a treasure trove of memories and style.

Wooden accents from all over the world blend seamlessly and elegantly in this North Arlington home. From the moment you step inside, white walls are accented with wooden wonder from a life well lived. You're immediately greeted by Michael's grandmother's wooden table and a substantially stylish wooden chest topped with red velvet. Hidden doors

throughout the space let the art and accents take the spotlight, leading you effortlessly into the spacious kitchen, living and dining area. Built over the course of three years, this home was a labor of love, built to house the special touches of family and travel that are so meaningful to the family.

In the kitchen, custom cabinetry in Gauntlet Gray holds a massive quartz island, all built around the wooden beams inspired by their time living in Germany. The dining table and buffet were bought while living there as well, and the Thermador and Frigidaire appliances help this family entertain while the three grills outside leave endless possibilities for cooking and hosting. Almost every touch in this beautiful home has meaning, and that's just the way they like it.

Stained glass from Michael's grandmother's sits opposite the ceramic roosters purchased in Germany that flank the range and hood. Next to that is a butler's pantry with floor to ceiling

shelves, which is a favorite of the family and guests alike. A second refrigerator and dishwasher make that a natural place for cleaning up, keeping the main kitchen shining with style.

The mission of Kitchen Kapers holds special meaning for the family. Michael's mom is a breast cancer survivor while his dad has prostate cancer and is currently undergoing treatment.

What is cold cap therapy?

Cold cap therapy aims to prevent or minimize chemotherapy-induced hair loss. It involves the use of a special set of caps, cooled to very cold temperatures and worn on the head before, during and after each chemotherapy treatment. These cold temperatures constrict the blood vessels in the scalp. This may prevent some chemotherapy drugs from reaching the hair follicles, thus preventing or reducing hair loss.

75% of the cold cap program at OhioHealth has been funded through the donations from Kitchen Kapers. Specifically, \$50,000 was allocated to the program from the 2021 Tour.

Heck Home

2065 FONTENAY PLACE

Jennifer and Robert Heck knew they wanted to stay in their home that they have owned since 2010. But they also knew they wanted an overhaul. As the original owners of this North Arlington home, they wanted their first renovation to update the dark European décor with something new, fresh and modern.

Walking up to the gorgeous, palatial exterior, the beautiful landscape and exquisite detailing give you a preview of the timeless beauty that you'll find inside. The high ceilings and circular stairway in the foyer give the natural light a playful palette.

Inside, the downstairs renovation was extensive. They overhauled the kitchen, dining room, pub, two half baths and the laundry room. Additionally, they replaced the oak hardwood floors throughout the entire space. It's safe to say, while they are the original owners of this home, their house felt brand new.

Both an open floor plan built with distinct areas, the space is ideal for setting any mood. The Hecks enjoy everything from small get togethers in the kitchen when their kids are home from college to sports and drinks in the pub. Beautifully styled built-ins around the dark gray fireplace keeps the living space cozy while a wall of windows splashes the kitchen and breakfast nook in sparkling light.

The kitchen boasts two standalone islands, one for prep and one for serving, plus a counter with bar stools, making it

the perfect place to entertain. Open metal shelving flanks the beautiful hood and range in this chef's kitchen that is full of Viking and Wolf appliances. The cabinets in off white stand in beautiful contrast to the dark wood of the islands, while clear pendants leave the view of this elegant yet modern kitchen unencumbered.

A renovation that will stand the test of time, this home has been updated to a timeless look that lets the family live in comfortable style for years to come.

OhioHealth Cancer Care

Larry Lilly, MD, FACS
*Medical Director, OhioHealth Cancer
Survivorship Program*

Dr. Lilly is a board-certified surgeon and MD Anderson Cancer Network® certified physician who practiced surgery at OhioHealth Riverside Methodist Hospital and OhioHealth Dublin Methodist Hospital from 1980 – 2019.

In April 2019, he became the medical director of OhioHealth’s Cancer Survivorship program.

The OhioHealth Cancer Survivorship and Supportive Care program offers customized care plans to help you find your new normal. Whether you are actively receiving cancer treatment, or have completed your treatment plan, you can be referred by your doctor to one of our survivorship clinic specialists.

Our program will help you prepare for a healthy life after cancer treatment, including information and resources about nutrition and fitness, as well as other cancer wellness and support opportunities.

For more information about OhioHealth Cancer Care, contact OhioHealth CancerCall at (614) 566.4321 or 1(800) 752.9119 from 8 a.m. to 5 p.m. Monday through Friday or visit [OhioHealth.com/CancerSurvivorship](https://www.ohiohealth.com/CancerSurvivorship)

Caldwell & Kracker Home

1936 ARLINGTON AVENUE

When you own one of the most successful jewelry businesses in Columbus, your 100-year-old house soon becomes a creative outlet for your artistic talents. That's just what happened to Treffry Caldwell Kracker and Ken Kracker, when they remodeled their South Arlington home in 2020.

Designed by Treffry herself, you immediately know what you're in for when you enter the lacquered black door at this Arlington Avenue home. White serves as the backdrop for modern flourishes of every kind. You're greeted with a stellar gold modern light fixture, and the home just gets better from there.

As the owner of Pluma Jewelry, Treffry uses her home like a canvas. She believes it's important to surround yourself with the things you love, and for the Kracker family, that is rocks and minerals, which you will find elegantly incorporated in every corner of the space.

Walking into the dining room, Treffry's pink floral paintings on black canvas stand in beautiful contrast to the spiked black light fixture she fashioned herself when she couldn't find exactly what she wanted. Thinking you're in for an uber-modern décor would prove faulty though, once you enter the white and gray traditional style kitchen with modern accents that make this kitchen uniquely theirs.

As classic as can be, the Carrara marble and white custom cabinets allowed the family to add modern features like the art, fixtures and hardware. A custom-stained dark floor keeps the

space flowing and black window frames around the sink bring weight to the space. Cooking up Italian food is a love for this family, who uses the Thermador appliances to make family dinners for their two daughters.

Effortlessly blending into the four-seasons room, this space can serve as a porch or a covered patio, depending on the need. With many Pluma parties and other gatherings hosted here, entertaining is essential to this unmistakably unique home.

Cancer Care: Arts in Medicine Program Brings Comfort to Patients and Families

Where do the arts fit into healthcare? Right at the bedside! Living with cancer can create unbearable stress and anxiety. It can come from constant worry about the condition of cancer or fearful waiting before a procedure or surgery.

The Arts in Medicine program at OhioHealth Riverside Methodist is designed to help patients and their families cope during these times by providing cancer resources and a means to help them relax through creative activities, as well as express and explore their emotions and concerns.

Research studies on arts in medicine programs have proven artistic activities can lower stress levels, decrease anxiety and improve a sense of well-being. Riverside Methodist's Arts in Medicine program includes, but is not limited to, visual, literary and musical arts that can help the patient shift focus into a more peaceful and hopeful mental space.

Solely funded by philanthropic support and the only program in central Ohio recognized by the National Endowment for the Arts as a "Best Practice," the Arts in Medicine program is founded on the belief that the creative process involved in artistic self-expression helps people in many significant ways.

Kitchen Kapers would like to thank Jennifer McHale, art therapist, for providing an opportunity to see how art impacts others.

We would also like to thank John Morgan for sharing his musical talents during the tour today. John is a current Artist in Residence at Riverside Methodist Hospital.

Powers Home

2351 OXFORD ROAD

In 2021, 20 years after they purchased their South Arlington home, Colleen and Chris Powers knew it was time for a refresh. With their three boys grown and out of the home, they wanted a comfortable, livable update to their space.

Details abound in this home that is both traditional and thoroughly modern. In the kitchen, touches like dark granite countertops and hidden pantry doors bring an elegantly modern mood to a home where everything was thoroughly thought through and nothing is left to chance. The home was designed with a neutral color palette, organic textures, minimal artwork, and comfortable furniture.

In the kitchen, a quartzite island sits opposite a dining space with a dining table surrounded by the coziest chairs. In the corner, you'll see a one-of-a-kind artwork, created by a Disney animator using none other than NASCAR paint. A bar area makes for easy access to a cocktail, but if you want a proper pour, your best bet might be to head to the bourbon room.

Mid-century cool, the bourbon room boasts elegantly lit shelves, a modern table and plush club chairs. This room is where champagne wishes and bourbon dreams come true. A zinc bar adds to the modernity of it all.

Whether you're being entertained at the spacious island, lounging on the leather sofa or soaking it up in the sunroom, you'll feel right at home in this timeless stone stunner.

THIRD & HOLLYWOOD

WATER PROVIDED BY:  THE ALVIS GROUP
kw CLASSIC PROPERTIES

Wiseman Home

2085 CHESHIRE ROAD

As warm and welcoming as the family who lives here, the Wiseman home was built to entertain family and friends. Meant to have both an open flow as well as distinct spaces, this home is a beautiful reflection of the generous spirit the Wiseman's bring to their South Arlington neighborhood.

Mike Edwards Building & Design worked closely with designers Sisters Maison and the Wisemans to create a compelling blend of rustic mountain house that felt right at home in UA's modern traditional style. Beams reclaimed from a single barn in Marion Ohio flank the ceiling, adding to the cabin feel, while flowy curtains and white couches bring modern and traditional additions to the space. The overall neutral color palette with pops of contrast makes the open plan feel

organic and informal, yet polished and put-together.

Walking through the main doors of the home Meghan and Steve share with their three kids, you're greeted with a space that feels both open-concept and distinctly individual. The library is dark and moody with a glass table that brings a 50's-style cocktail lounge look, while the art and built-in shelves help it flow seamlessly into the hallway. Opening

into a living space with multiple seating areas, this part of the home is the perfect setting for the many family gatherings, get togethers and happy hours hosted here. Intentionally created for each space in the home to have a unique feel, the bar area that flanks the kitchen houses black metal cabinets and antique postcards that tell the story of the family's history.

Standing both in contrast and perfect complement to the bar, the kitchen boasts a Danby White Honed Marble countertops and Hampton-style cabinets in a beige Dune. But the first thing you're drawn to isn't the classic white brick backsplash or even the cozy pantry nook, it's the metal and bronze hood. The pendant lights are intentionally understated, so as not to draw attention from the stunning old-world style cooking area.

Mere steps away and through the huge glass doors is the family's favorite area of

the home, the entertaining porch. With a built-in stove and mini fridge, heat lamps and a towering stone fireplace, this outdoor space is built for year-round living.

Step down into the basement and you're transported to a world of comfortable luxury. A bar with beer taps that would be at home in any mountain town will play host to many football Saturdays. But step behind the bar and you enter a room with a whole different feel. A wine room encased in glass doors keeps the wine perfectly chilled, while a gas lantern sets the mood above a card table and cozy modern chairs. Just another example of the distinct spaces that set the tone for memories of every kind.

The work of Kitchen Kapers is personal and special to the Wiseman family. Meghan's father, grandfather and great grandfather were physicians at Riverside. Steve is an orthopedic surgeon working at Ohio Health since 2017.
