PHILANTHROPIC PARTNER:

Celebrating 35 Years!

Kitchen Kapers is an annual tour of newly remodeled gourmet kitchens in the Upper Arlington community. The idea for the event was baked 35 years ago, with a simple mission: To improve the lives of cancer patients. Since then, our committed volunteers and generous patrons have helped raise more than \$1 million for cancer care services at OhioHealth Riverside Methodist Hospital.

This year, our proceeds will now also reach further. We will continue to fund the Artist in Residence program at Riverside Methodist, and will also support the hospital's other integrative care offerings. Integrative care aims to manage symptoms such as pain, nausea and fatigue and promote optimal health and well being for cancer patients.

Integrative services offered at OhioHealth Arthur G.H. Bing, MD, Cancer Center:

- + Acupuncture
- + Art therapy
- + Cold cap therapy
- + Integrative physician consultation
- + Manipulative therapy
- + Massage therapy
- + Mind-body therapeutics
- + Nutrition counseling

What is cold cap therapy?

Cold cap therapy aims to prevent or minimize chemotherapy-induced hair loss. It involves the use of a special set of caps, cooled to very cold temperatures and worn on the head before, during and after chemotherapy treatment. These cold temperatures constrict the blood vessels in the scalp. This may prevent some chemotherapy drugs from reaching the hair follicles, thus preventing or reducing hair loss.
